A Primary horizontal lockup — proportions

B Symbol construction

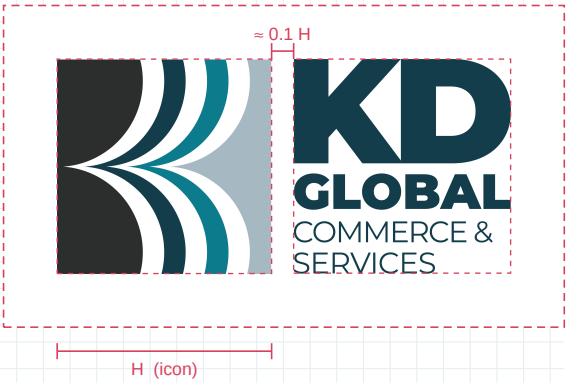

Symbol: perfect square, 1 : 1

Four bands; each is built from two mirrored curves meeting on the horizontal centre line (50 % of H).

Navy, teal and grey bands are equal in width (≈ H/10) and separated by white gaps of the same width — a steady 1 : 1 rhythm. The charcoal band is the anchor (≈ 0.39 H) and the grey band bleeds to the edge.

C Stacked lockup

Text block aligns with icon top & bottom.
Dashed outer box = clear space (¼ H).

D Minimum sizes (recommended)

Version	Print	Digital
Horizontal lockup	30 mm wide	120 px wide
Stacked lockup	25 mm wide	100 px wide
Symbol only	8 mm wide	24 px wide

E Usage rules

- Always use the supplied artwork files — never redraw or retype.
- Scale proportionally only; never stretch, squash or skew.
- Do not recolour, outline, add shadows or effects.
- Do not rotate, crop or rearrange the elements.
- Place on white or very light backgrounds; keep ½ H clear space.
- Use the symbol alone only where the brand is already established.

Annotations (red) are overlays drawn on top of the unmodified logo files; the logos themselves are unchanged. Minimum sizes are recommendations.

Symbolism & Meaning

The elements of the KD Global logo and what each one represents

Note: this symbolism is a professional interpretation of the artwork, written for a tours and travel positioning.

Four fanned bands

Four parallel bands, each curving like a sail or wing, suggest journeys running side by side — or the company's service lines moving forward together.

One point of departure

Every band narrows to a point on a shared centre line. This is the horizon / departure point: one origin opening out to many destinations.

Mirrored curves

Upper and lower curves mirror each other, reading as spread wings, ridgelines or the open pages of a guidebook. Symmetry signals balance and dependability.

Colour progression

Charcoal Graphite → Deep Horizon → Global Tide → Misty Horizon moves from depth to light: night to dawn, deep sea to open sky. The lightest band is the destination.

Rhythm of white channels

Equal bands and gaps create a steady beat — motion lines, the wake of a vessel, air currents — implying speed without aggression.

Straight right edge

The symbol is cropped by a hard vertical edge, like an aircraft window or passport page: the traveller's frame on the journey ahead.

KD monogram

The K and D are fused into one block and share an edge. The sharp white notch at the K's arm forms an arrowhead pointing forward: two partners, one direction.

GLOBAL & tagline

Extra-bold, wide GLOBAL with a round O echoes the globe. The light, widely-tracked tagline contrasts with it — approachable beneath the authority.

Logo artwork reproduced from the original supplied files — scaled proportionally only, never altered.

Colour Palette & Symbolism

Four signature colours, read from left to right as one journey

#2C2D2D
RGB 44 · 45 · 45

Charcoal Graphite

STRENGTH · GROUNDING · PERMANENCE

The anchor of the palette and the widest band of the symbol. Charcoal Graphite stands for the solid foundation and home base from which every journey begins — sophisticated, dependable and built to last. It is the night before departure: calm, prepared, certain.

#133D4A
RGB 19 · 61 · 74

Deep Horizon

TRUST · DEPTH · PROFESSIONALISM

The colour of the deep ocean and the far horizon at dusk. Deep Horizon carries authority and reliability, which is why it also colours the KD GLOBAL wordmark. For travellers, it says their money, documents and plans are in safe hands.

#0C7B8C
RGB 12 · 123 · 140

Global Tide

ENERGY · DISCOVERY · HOSPITALITY

Clear tropical water and a tide that connects distant shores. Global Tide brings freshness, movement and warmth to the palette — the spirit of exploration, welcome and the excitement of arriving somewhere new.

#A6B8C2
RGB 166 · 184 · 194

Misty Horizon

CALM · CLARITY · OPENNESS

Morning mist and open sky, where the horizon dissolves into light. Misty Horizon is the destination band: serene, optimistic and full of possibility. It softens the palette and leaves room for the journey to continue.

THE PALETTE AS ONE STORY

Read in order, the four colours trace a single journey: from the **grounded home base** of Charcoal Graphite, through the **deep, trusted waters** of Deep Horizon, into the **energy of the Global Tide**, and out to the **open, hopeful sky** of Misty Horizon.

Note: colour names and symbolism are a professional interpretation written for a tours and travel positioning. HEX/RGB values are sampled from the original logo files.
