LOGO

Logo Mark | Primary Logo

THE LOGO MARK

One Origin. Many Destinations.

The KD Global symbol is built from twelve identical circles that fan from a single point into four bands of colour. Charcoal Graphite, Deep Horizon, Global Tide and Misty Horizon open outward like a horizon, a wing or the pages of a travel guide.

SYMBOLISM & PURPOSE

- **Direction and journey**
  The bands widen from left to right, signalling departure, progress and arrival, the heart of Tours & Travels.
- **Trust and global reach**
  Deep, grounded tones carry the reliability travellers look for, while teal and misty grey bring openness and a worldwide outlook.
- **Built to travel**
  Simple geometry stays recognisable from a luggage tag to a roadside signboard, and can stand alone once the brand is established.

KD GLOBAL
COMMERCE & SERVICES

THE PRIMARY LOGO

The Master Signature

The horizontal lockup pairs the symbol with the KD GLOBAL wordmark and the Commerce & Services descriptor. It is the first choice for letterheads, documents, signage and digital, wherever space allows.

The symbol paired with a stacked KD GLOBAL wordmark, for a compact and balanced signature.

05 —

BEST FOR

Embossing, watermarks, footers, narrow or text-led layouts.

Logo Usage

The KD Global logo is our most valuable brand asset. Using it consistently builds recognition and trust, so always use the approved artwork in its original proportions and colours. The examples below show how the logo should and should not appear.

Backgrounds

The KD Global logo performs best on clean, uncluttered backgrounds with strong contrast. Use the full-colour logo on white or light tints, and the reversed white version on Deep Horizon or other dark brand colours. Always keep the logo clear of busy images and patterns.

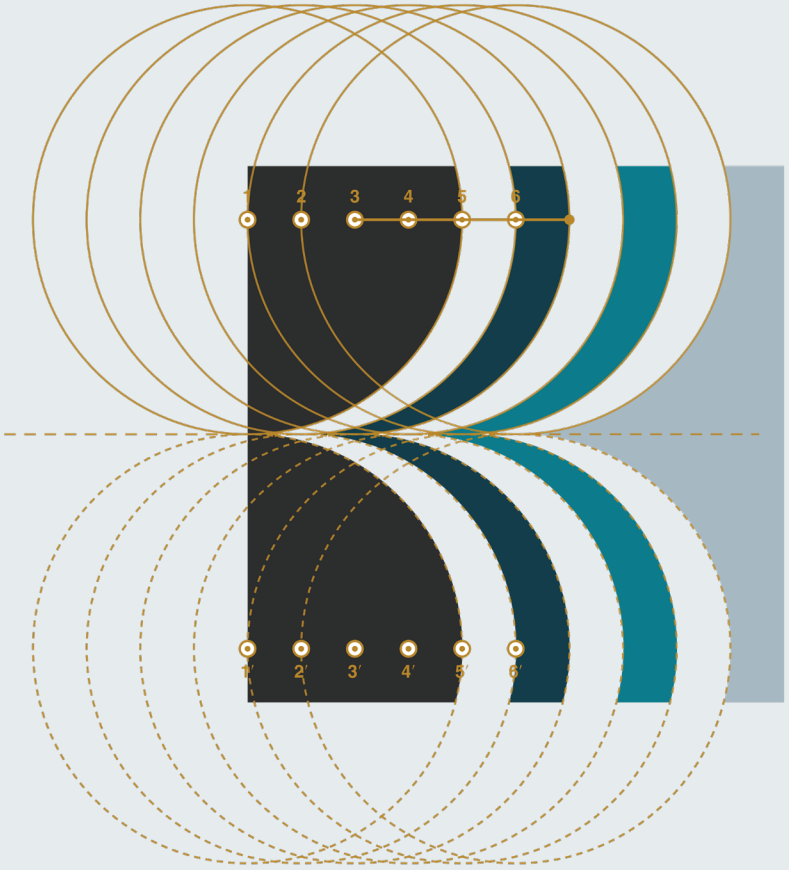

03

LOGO CONSTRUCTION BLUEPRINT

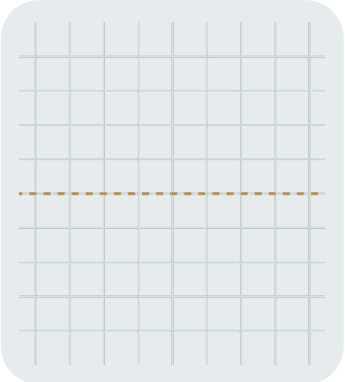

Symbol 12 Congruent Circles | Construction in four steps

The KD Global symbol is built on a system of golden circles. Twelve identical circles, six above and six mirrored below a central axis, define every curve, gap and point of the mark. This precise geometry gives the logo its balance and rhythm, and is the reason it must always be reproduced from the original artwork.

COLOUR PALETTE & SYMBOLISM

Brand Colour | Primary Colour | Secondary Colour

Brand Colour

The KD Global colour palette reflects the stability, clarity and global reach of the brand. Built around deep marine tones and balanced by cool neutrals, it creates a confident, trustworthy and modern identity. Deep Horizon and Global Tide lead the palette, supported by Charcoal Graphite and a range of soft tints that keep layouts clean and professional.

Primary Colour

Our primary colours define the KD Global identity, carrying trust, energy and strength across every logo, application and touchpoint.

Morning Haze

SOFTNESS • BALANCE • SUBTLETY

The gentle veil of haze that lingers over the water just before the sky clears. Morning Haze is the quiet bridge between the soft blue-grey of Misty Horizon and the open brightness beyond.
